- Header: Early Warning Signs of Autism
- Footer: Autism Case Training: A Developmental-Behavioral Pediatrics Curriculum
- Slide Content:
 - Part II
 - During your conversation, you find out that Mark attained his motor milestones typically...

Slide 9: Question

- Header: Early Warning Signs of Autism
- Footer: Autism Case Training: A Developmental-Behavioral Pediatrics Curriculum
- Slide Content:
 - After observing Mark, how has your initial reaction changed?

Slide 10: Video

- Header: Early Warning Signs of Autism
- Footer: Autism Case Training: A Developmental-Behavioral Pediatrics Curriculum
- Slide Content:
 - Observation: Nathan & Ben: 1 Year 7 Mos
 - Link to Video Playlist: <http://www.cdc.gov/ncbddd/video/actearlycurriculum/>

Slide 11: Part III: Epilogue

- Header: Early Warning Signs of Autism
- Footer: Autism Case Training: A Developmental-Behavioral Pediatrics Curriculum
- Slide Content:
 - Part III: Epilogue

- After quickly reviewing these references in your mind, you do have concerns about Mark, and commend your cousin for picking up these issues so early...

Slide 12: Question

- Header: Early Warning Signs of Autism
- Footer: Autism Case Training: A Developmental-Behavioral Pediatrics Curriculum
- Slide Content:
 - How would you apply the information in this case?
 - What did you learn through this case?

Slide 13: Post-Learning Exercise

- Header: Early Warning Signs of Autism
- Footer: Autism Case Training: A Developmental-Behavioral Pediatrics Curriculum
- Slide Content:
 - Post-Learning Exercise
 - Test each other on developmental milestones
 - Go to: www.cdc.gov/ncbddd/actearly/milestones/index/html
 - Pull up the developmental page for different age groups
 - Take turns testing each other on the developmental milestones for each age
 - Go into a waiting room and “borrow” a typically developing child (or two). Interact and observe the child/children and try guessing the age of the child.

Slide 14: Potential Next Case

- Header: Early Warning Signs of Autism
- Footer: Autism Case Training: A Developmental-Behavioral Pediatrics Curriculum
- Slide Content:
 - Potential Next Case: Screening for Autism
 - Case Goals
 - Perform autism-specific screening as recommended by the AAP.
 - Develop an appropriate management plan based on autism screening results.

Slide 15: Presentation End
